Can OverDrive Listen be accessed offline?

Unfortunately an active Internet connection is needed. *Using OverDrive Listen can consume a lot of data, so if you're on a mobile plan with a data cap, it is recommended to use a WiFi connection when streaming on your mobile device to avoid data overages.*

OverDrive LISTEN Compatibility

For best results on a computer, you'll need: Windows 7 or newer, Mac OSX 10.9 or newer, or a Chromebook (Chrome OS).
